

Route 9 Community Task Force Meeting Agenda for August 20, 2002 meeting

August 20, 2002

7:00 – 9:00 p.m.

Facilitator: Margaret Norton-Arnold

Bear Creek Grange

2279 Highway 9

Informal community task forces have been formed in the communities immediately adjoining each of the two sites (Route 9 and Edmonds Unocal) under consideration for the Brightwater Treatment Plant. The task forces will assist in the planning of informational seminars and community design workshops, and will serve as important links between King County and the local community. In 2002, the task forces will assist in the planning of informational events and activities that will be most helpful in their area. For example, seminars on topics such as odor control or treatment plant technologies or tours to other wastewater treatment facilities may be planned. The task forces will also assist in the planning of and developing themes for upcoming design workshops. Task force meetings will also allow time for members to share issues, concerns, or ideas they are hearing from their neighbors and communities.

Members of the public are welcome to observe Task Force meetings. Discussion at task force meetings is limited to Task Force membership. Public comment **will not** be taken at these meetings. If over time community members want to become actively involved in the task forces, we will discuss ways to effectively involve them without interrupting the work of the task forces.

For more information on the community task forces, please contact Debra Ross at 206/684-1344.

AGENDA

PRIMARY GOALS FOR THE MEETING:

- ✓ Discuss the designation of a preferred alternative for the Draft EIS on the Brightwater project.
- ✓ Review and discuss possible community meetings.
- ✓ Listen to concerns, issues, and questions.

7:00 P.M. WELCOME, MEETING OVERVIEW
--Margaret Norton-Arnold

7:05 P.M. QUESTIONS AND DISCUSSION: WHAT A PREFERRED ALTERNATIVE MEANS
--CHRISTIE TRUE WITH TASK FORCE MEMBERS

7:45 P.M. BREAK

7:55 P.M. QUESTIONS FOR THE TASK FORCE:
What events can we plan to most effectively interact with the community? For example, an additional meeting related to technical issues has been suggested. Is this a good idea, and, if so, how should it be designed and advertised?
Are there other methods, in addition to meetings, that we could be using the listen to, and involve residents and businesses around the Route 9 site?

8:30 p.m. Draft Community Task Force Schedule: 2002-2003
--Margaret Norton-Arnold with Committee Discussion

8:45 p.m. What are you hearing? Comments, concerns, questions, rumors?
--All Task Force members

9:00 P.M. ADJOURN
